SUMMARY

Quantitative Finance graduate student with 1.5 years of financial analyst experience managing a $40 million fund and generating a 25% return. Seeking a Quantitative Research Analyst Internship to leverage Python, R, C++, MATLAB, SQL, and advanced statistical modeling to develop predictive models, analyze market behavior, and optimize investment portfolios.

SKILLS

Programming Languages & Tools: Python, R, C++, MATLAB, SQL, Git, Microsoft Excel (Advanced), Tally Software
Libraries & Data Science: Pandas, NumPy, Matplotlib, Scikit-learn, Time-Series Analysis, Machine Learning, Predictive Modeling
Mathematics & Statistics: Probability Theory, Statistical Inference, Regression Analysis, Hypothesis Testing, Stochastic Calculus, Financial Econometrics, Portfolio Optimization.
Finance & Accounting: Risk Management, Quantitative Finance, Financial Modeling, Audit Procedures, GST & Tax Compliance, Financial Reporting

EXPERIENCE

Shri Hari Finance: Financial Analyst | Bengaluru, Karnataka, India ***Jun 2024 - Dec 2025***

- Analyzed a $40 million fund using statistical modeling and regression analysis to evaluate portfolio performance and market risk.
- Generated 25% return growth via mathematical portfolio optimization models & applying rigorous probability theory to risk analysis.
- Developed predictive machine learning and time-series forecasting models for 12+ clients to conduct trend analysis on financial datasets.
- Evaluated quantitative portfolio investment risks by analyzing historical market data, volatility patterns, and statistical relationships.

MOJ & Associates: Audit and Finance Intern | Bengaluru, Karnataka, India ***July 2022 – Aug 2022***

- Analyzed 100+ complex financial records to identify pattern anomalies and support quantitative data verification and statistical integrity.
- Reconciled 10+ client datasets to ensure data processing accuracy, quantitative consistency, and optimal mathematical precision.
- Executed mathematical reconciliation & data processing workflows for 5+ client accounts to reinforce computational integrity & audit readiness.

PROJECTS

Multi-Factor Equity Signal Research & Portfolio Optimization ***Mar 2025***

- Developed a quantitative research framework to test whether value, momentum, and quality factors explain cross-sectional equity returns.
- Engineered predictive factor signals from historical datasets using cross-sectional ranking and rigorous hypothesis testing.
- Applied regression and machine learning algorithms to analyze factor interactions, signal stability, and performance across market regimes.
- Programmed a walk-forward portfolio backtest with optimization constraints & risk controls to evaluate out-of-sample trading performance.

Technologies: Python (Pandas, NumPy, SciPy, Statsmodels, Scikit-learn), Factor Models, Regression Analysis, Hypothesis Testing, Portfolio Optimization, Backtesting.

Stock Market Performance Analysis ***Jun 2024***

- Analyzed three years of historical stock market data for major equities to identify trend patterns and mathematical volatility.
- Conducted exploratory data analysis, data cleaning, and statistical transformations on large financial datasets using Python.
- Evaluated quantitative metrics including daily returns, rolling moving averages, and cross-correlation matrices for statistical modeling.
- Developed structured data visualizations to communicate statistical insights, financial market behavior, and trend comparisons.

Technologies: Python (Pandas, Matplotlib), SQL, Microsoft Excel, Exploratory Data Analysis, Time-Series Analysis

EDUCATION

Northeastern University - Boston, MA, Master of Science in Quantitative Finance *Sep 2026 - Dec 2027 (Expected)*
CFA Institute - CFA Level I Candidate *Oct 2026 - May 2027 (Expected)*
ICAI - Institute of Chartered Accountants of India - CA Intermediate *Aug 2023 – Aug 2024*
St. Joseph's College of Commerce (Autonomous) - Bachelor of Commerce | GPA: 3.65/4 *Jun 2020 - Apr 2023*
Sri Bhagawan Mahaveer Jain College - Grade 12 – Commerce | State Rank Holder, Grade: 588/600, 98.00% *June 2018 – Mar 2020*

CERTIFICATIONS

- Bloomberg Terminal - Bloomberg L.P. *Nov 2026*
- Foundations of Software Engineering and Data Management - Northeastern University *Aug 2026*
- Foundations of Responsible AI - Northeastern University *Aug 2026*
- Tally Software Certification - Tally Education Pvt. Ltd. *Feb 2022*
- Grade 6 Drum Kit - Trinity College London *Jul 2017*

AWARDS & HONORS

- Academic Leadership Award - SJCC *Mar 2023*
- Best Outgoing Student – Jain College *Jan 2020*
- Award for Academic Excellence (State Topper) – Jain College *Mar 2020*
- Best All-Rounder Award – High School *Jan 2018*
- High Achiever Award – High School *Jan 2016*
